## 2 & 3 Letter Word Families Curriculum Map

Twenty-four-word families featuring 2 and 3 letter word families for each of the 5 vowels. There are sixteen lessons for 2 letter word families and eight lessons for 3 letter word families.

Students will become familiar with the rhyming words in each word family by completing the worksheets that focus on printing the sound block and using picture cues to write the letter pattern. A reinforcement activity will check their knowledge of the sound block and their ability to decode words. The exercises will also strengthen reading, writing, and spelling skills. For each family, three parallel activities are included.

Lessons start with a simple printing exercise, followed by an exercise for the use of words in context to draw out meanings. Picture matching is used to enhance connections. The third activity focuses on deeper understanding and use of the words in context, spelling, and grammar skills.

Games like picture bingo, riddles, and silly poems and stories make this a resource that is both practical as well as enjoyable for students.
